

LOUIS STERN GALLERIES opens the holiday season with a celebration of floral works in every medium. Among the notable artists included in this "garden of interpretation" are: Redouté, Fantin-Latour, Matisse, Picasso, Kuniyoshi, Giacometti, O 'Keefe, Demuth, Mapplethorpe, Thiebaud, Bartlett, and others.

With the approach of the New Year when people are most open about giving, it seems appropriate to give something back to nature.

"Stamens and Pistils" hopes to unite the timeless entity of the flower -- both fragile and durable, with the timeliness of our environmental concerns. In early December, LOUIS STERN GALLERIES will host an event in conjunction with ECO - Environmental Communication Office.

Striving to keep the flower more than just a memory through the arts, a portion of the proceeds from this exhibition will be donated to this organization.
